

We have an understanding of the Nigerian business tax system as well as those of other major trading nations of the world. We advise our clients on tax implications to their businesses such as sale of shares, assets etc. We also litigate for our clients where necessary in dispute of tax matters etc.

We provide legal support to clients in several complex joint venture transactions and tax planning. We negotiate various joint venture agreements and prepare documentation pertaining to the conception, construction and management of the subject matter at hand.
