

We understand the importance of protection of intellectual property rights as one important constant to sustainable investment growth. We liaise with our clients to obtain and ensure the protection of their patents, copyrights, trade names and patents. We advise our clients in all aspects of patent and trademark services such as negotiating and concluding patent licensing, searching, franchising, filling, confidential disclosure etc. We go as far as representing our clients in prosecuting and defending them against passing off and patent infringement.

We secure the rights of manufacturers in respect of goods available in the Nigerian market. We advice on exploration, development, licensing and registration of copyright, patents, designs, and trademarks.
